

**Risk Compliance Performance Solutions and Bankruptcy Management Solutions
Announce Partnership to Offer Plan Termination Services**

Companies collaborate to offer comprehensive terminated plan solutions including implementation and advisory services, missing participant location and distribution services

Dresher, PA – March 17, 2011 – Retirement Plan Management Services, a division of RCP Solutions (RCP), the leader in ERISA Plan compliance and termination advisory services, has partnered with Bankruptcy Management Solutions, Inc. (BMS) the industry’s foremost provider of bankruptcy case administration, to provide integrated plan termination services to fiduciaries, alleviating the risk and compliance of plan terminations quickly and efficiently minimizing unnecessary costs.

“We are delighted to be expanding our service platform to further serve the needs of bankruptcy fiduciaries tasked with navigating the complexities of terminated or abandoned plans,” said Dorothy Flynn, Chief Executive Officer of RCP Solutions. “This is a true partnership enabling two best in class providers to collaborate on a specific category within our capabilities while continuing to operate separately. By integrating solutions, RCP and BMS will streamline participant outreach and location, determination of eligibility, payment of benefits, payment of plan expenses, preparation of reports for participants, and compliance with the Internal Revenue Code and the Department of Labor guidelines. Our combined expertise will offer fiduciaries a one-stop-shop solution reducing the burden of performing these obligations as the administrator of employee benefit plans after a company files bankruptcy as defined by Section 704(a)(11) in the Bankruptcy Code”.

“This is an exciting program that will deliver enhanced products and services to our clients” said Raquel Edwards, BMS’s Chief Operating Officer. “Terminating a plan is, unfortunately, becoming increasingly common in our current economic environment. While many fiduciaries and advisors look to follow general guidelines for terminating defined contribution and benefit plans, the process can be time-consuming, as well as administratively and legally complex”.

“We are excited to partner with RCP Solutions,” Ms. Edwards continued, “RCP is an organization with extensive experience in managing ERISA compliance and, 401(k) plan terminations. RCP’s experience will be invaluable to fiduciaries and will ensure they are compliant with the Department of Labor guidelines while terminating abandoned plans and, will assist with the location of missing participants quickly and efficiently.”
