

CaseLink

An **innovative technology**
platform combined with a serious
commitment to service from the
most **experienced** provider in the
bankruptcy management industry

Bankruptcy Management Solutions

The majority of all panel trustees choose BMS for their bankruptcy management services.

BMS provides the most innovative and robust technology in the industry paired with highly personalized service from experienced professionals.

Innovative End-to-End Technology Platform

CaseLink™ is a complete technology platform providing seamless workflow throughout the bankruptcy lifecycle, from petition to distribution. CaseLink was developed by BMS to automate and streamline bankruptcy administration making trustees more productive and profitable. We lead the industry in the scope and quality of our technology services including:

- Intuitive software with time-saving features, such as wizards and querying tools, that maximize efficiency
- Easiest software in the industry to learn and use
- Up-to-date hardware ensures you are running at maximum speed and eliminates downtime. BMS partners with Dell and CDW for hardware.

99% of our clients say they would recommend BMS to a colleague.

"What I need in order to administer a case is in the CaseLink case management software. By learning the software and utilizing its many functions, I am able to move my cases along quickly for the benefit of the creditors, as well as myself."

– Robert Furr, Chapter 7 Trustee, Boca Raton, FL

Commitment to Service

BMS provides the most robust support network in the industry. We have more national account managers than any other provider. Our account managers have extensive experience as former paralegals or trustee assistants. They provide direct on-site support for your needs, including:

- Software training
- Technical troubleshooting
- Customized support and improved workflow management consulting
- Conversion support

BMS' Helpline and field technicians are the most responsive in the industry. Our staff are not only CaseLink experts, but also provide technical support on the following:

- Computer and wide-area networking
- Operations systems
- Word processing packages
- Database recovery
- Peripheral support

Features

CaseLink is the #1 software choice among panel trustees because of its comprehensive functionality and easy-to-use interface. Here are just a few of the features and benefits of this powerful tool:

95% of BMS clients rate their account manager's software and bankruptcy knowledge as 'excellent' or 'very good'

94% of customers report that their HelpLine calls are resolved on the same day

Automated Data & Document Delivery & Management

- Captures, retrieves, organizes and archives ECF documents and case files
- "Drag and drop" feature pulls multiple files at one time
- Automated functionality compiles and sends reports to and from the court
- Integrated e-mail functionality

"The BMS software automatically pulls new cases, documents, filing dates and schedules via ECF, and brings them into the Caselink system, eliminating the need to enter them manually."

– Randy Skinner,
Chapter 7 Trustee, Greenville, SC

One-Click 341(a) Filing

- Eliminates manual entry at the court
- One-click e-filing
- Automatically uploads and re-imports 341(a) meeting results

"With Caselink's 341(a) filing feature, I merely mark the results for all my meeting files in Caselink, click a button and it's done! What an incredible time saver! I love it!"

– Caren Costanza,
Trustee Assistant, Trenton, NJ

Automated Claims & Asset Management

- Downloads and imports claim and asset information from the court
- Automated verification for better claim and asset management
- Home Page notification of new claims and cases for import

"I love Caselink's asset/claims import feature because it saves me hours of time."

– Michele Holder,
Trustee Assistant, Wethersfield, CT

Electronic Banking and Disbursement Services

- Nationally approved Section 345 depository
- Optimized deposit and investment accounts
- Automated check printing

"I am very, very pleased with the efficient service and prompt response from the bank. I am most impressed with the speed and convenience of opening/rolling over CDs. Whoever designed this on-line banking system should get an 'A:'"

Kathy Warynovich,
Trustee Assistant, Ebensburg, PA

Mobile-Ready Technology

- Anywhere, anytime access
- Multiple options via the Internet and corporate networks
- Immediate remote access to case and office documents

"Having CaseLink Online on my laptop lets me leave the office and take all of my files with me. Whether at a 341 or on the beach, with an air card and Caselink Online, I have instant access to all of my files including correspondence, notes and schedules."

– Terry Dershaw,
Chapter 7 Trustee, Bryn Athyn, PA

BMS is a client-focused technology company providing an end-to-end technology platform for the bankruptcy industry. We provide the easiest, most innovative software in the industry paired with highly personalized service from professionals who are bankruptcy experts. Our comprehensive solution automates and streamlines bankruptcy administration, making our clients more productive and profitable.

Chapter 7 Solutions

The majority of all panel trustees choose BMS' CaseLink™ product for their Chapter 7 bankruptcy management services. CaseLink is a complete technology platform providing seamless workflow throughout the bankruptcy lifecycle, from petition to distribution. CaseLink was developed by BMS to automate and streamline bankruptcy administration making trustees more productive and profitable.

Chapter 11 Solutions

BMS' Chapter 11 bankruptcy management software - TrustWorks™ - and our bankruptcy case communications web portal service deliver a low-cost case administration solution. TrustWorks is web-based propriety software designed to streamline the disbursement of funds to creditors. Our software far surpasses traditional spreadsheet and accounting software programs by streamlining the post-confirmation administration process, while eliminating the fees and expenses of third-party providers.
